INFORMATION

His 1969 break through album was produced by Bill Szymczyk who went on to produce The Eagles. It was Szymczyk's idea to overdub strings to *The Thrill Is Gone*, the best-selling of all B.B. King's 45s. The slow and groovy million-seller, a twelve-bar blues, became his most prominent signature song, reaching position number three on the R&B charts, and climbing to number fifteen in 'Billboard's' hot 100 Pop charts remaining there for two months.

Compared to his earlier recordings for the Bihari Brothers, 'Completely Well' marks his step into the Seventies, winning a new audience of white rock fans. He had been opening for the Rolling Stones, and he also appeared at London's Royal Albert Hall that year. 'Completely Well' is "*truly the album that made the world sit up and take notice of B.B. King*" (Cub Koda, All Music Guide).

Backed by a small combo (with horns later added), B.B. King is in top form, playing guitar and singing at his best! 'Completely Well' ranks amongst the best studio albums in his entire career. We are making this great set available again in its original form, pressed on high-quality 180-gram virgin vinyl, packaged in a gatefold sleeve with the original artwork and linernotes.
